

Bali Sandstone Consulting is a building construction company based in Bali, Indonesia, since 2012, combining know-how, technological expertise and innovation to offer you customized projects, always closer to your expectations.

Our Franco-Indonesian team will help you design and build your real estate project in Bali.

Because every client is unique, Bali Sandstone Consulting pays special attention to the personalization of each project we are in charge of.

Together we will do everything to make your dream become a reality by making you benefit from our expertise and experience.

We offer you a turnkey project by taking over all the stages of the project, i.e., land search, plans, building permits, connections to networks, site supervision...
